

HURRICANE HUB

Hurricane Community has created a platform that will finally allow great new projects to rapidly connect with experienced industry players, benefiting our network of skilled professionals, and rewarding \$Hurricane Holders.

The Hurricane hub will help new projects to launch their activity on crypto landscape, using 3 main elements:

1. Talent Pool
2. Task Pool
3. Investors

These 3 element will create the possibility to launch our “project pool”, where Hurricane holders can enjoy on the making of new Tokens.

Main layout

- **Talent pool** – contain talent DNA's, classified by occupation.
- **Task Pool** – Tasks from different projects.

- **Service transaction** – 15% tax for transaction (made in BNB), 50% go to expenses, 50% go back to holders.
- **Project Pool** – will contain project we as a board accepted, then divided into tasks need to be done to make the project happened, the sum of tasks will create the project needed funds to raise from our community.
- **Hurricanes:** as a Hurricane holder, 2 main benefits.
 1. Token price increase from platform activity.
 2. The ability to invest and participate on pre-launch of new projects, reducing risk, and create real investment opportunity.

HOW DOES IT WORK?

New startup projects can apply for a Hurricane Hub partnership by follow our new project process application. Once vetted and approved for access to our PROJACT POOL, they can directly engage Hurricanes TALENT POOL and marketing networks for achieve their tasks.

Each project will allocate a pre-determined % of their pending native tokens to Hurricane Holders, and these will be distributed through air drops and offered to \$Hurricane Community members through pre-launch private token sale. Concurrently, skilled individuals who hold \$Hurricane and are looking to engage with projects in block chain technology can identify desirable projects through our HUB. Professionals wishing to register their availability will required to hold a certain amount of \$Hurricane tokens to access then work and build their profile. We are building a system to verify and share Talent Profiles which take the form of a professional CV integrating ratings, review send your project experience portfolio. Workers who have dreamed of the day they could finally take charge of their own financial freedom (and say no to un-rewarded over time!) know they are working to directly impact the success of the project; and in return, project success appreciates the value of their tokens.

Finally, as we head for mass adoption, quality on boarding education and support will experience exploding demand. Hurricane Academy will introduce and guide this influx of new participants, creating a win-win for both new bias and \$Hurricane Holders. Based on the amount of \$Hurricane held by the entrant, the platform will grant tiered access to a variety of resources, community support and training programmers. While our marketing outreach wild raw the crypto-curious in our advantage and prosperous Community support will encourage them to stay.

Where we are going

In a nutshell, our team and community has finally found a way to facilitate new projects into the Crypto space without un-reliable or costly intermedia resources multimillion dollar budgets. We aim to provide every qualified project and skilled professional the equal opportunity to participate and thrive through

our token economy. As we onboard new projects, connect professionals to projects, and introduce new users to this space, \$Hurricane increase in usage and therefore value. And because individuals effectively become shareholders in the entire Hurricane ecosystem, they necessarily have the project's best interests in mind. The Hurricane Team and Community stands firmly in alignment with the core crypto values of decentralisation and the power of mutual benefit to motivate ethical behavior. We aspire to help everyone who comes into this space with great ideas, valuable skills, or a desire to learn and grow. Join Hurricane to support and benefit from truly life changing financial independence no matter where you are around the globe. Hurricane: by community, for community. Always.
